## METRO OVERVIEW

### Why Metro?

Adjusting to college can be challenging. Learning in a small, supportive community of students and faculty can help you thrive throughout your first two years and beyond. Metro's goal is to help you graduate in a timely manner, gain the skills you need to succeed in college and find a meaningful career.

### What Is Metro?

Metro is a two-year learning community or academy of courses each semester that share themes such as social justice, education equity, community health and ethnic studies. Metro courses satisfy general education requirements for all majors at SF State, so you can go on to complete your bachelor's degree in any major.

Metro students receive tutoring, advising and support. Metro students also develop strong academic skills. They learn to write and speak with confidence and power, master mathematical concepts and think critically about real-world issues.
