Metro Alumni Voices

Metro truly made me more confident that I did belong in higher education, the community aspect was beautiful.

My biggest takeaway is being critical of the world we live in and be curious as well.

Such a community. I was a first-generation college student. Metro helped me guide through college. They help me succeed. They will not judge you at all.

The teachers were all very helpful and I enjoyed having the same students in all the Metro classes as it made it feel like a neighborhood of people you already knew.

Metro provided me with tools to navigate college confidently. As the first in my family to go to college and being low income, I didn't have any idea what steps I needed to take or how to get them done. Being in Metro not only ensured I had a guaranteed spot in integral classes, but also set me up for what I needed to do to get my degree. The guidance of the instructors, counselors, and program ultimately led me to graduation.
